

Calculus and Linear Algebra - Tutoring activities 2026/2027

Degree Programme: Business Management

No.	Date	Time	Room	Topics	Tutor
1	Wednesday 14 October 2026	10:00-12:00	9B	Vectors: operations, linear dependence and independence, rank. Matrices: operations, determinant, rank.	Dr Elisa Fazzari
2	Wednesday 21 October 2026	10:00-12:00	Aula Fanfani	Systems of linear equations: vector and matrix form, existence and uniqueness of the solution, Cramer's theorem and Rouché-Capelli theorem. Solving numerical and parametric systems (Cramer's rule).	Dr Elisa Fazzari
3	Wednesday 28 October 2026	10:00-12:00	9B	Real functions of one real variable: elementary functions, operations with graphs. Domain, intersections with the axes, sign: computation and analysis.	Dr Elisa Fazzari
4	Wednesday 4 November 2026	10:00-12:00	9B	Limits: verification, computation, continuity.	Dr Elisa Fazzari
5	Wednesday 11 November 2026	10:00-12:00	9B	Derivatives: differentiability, computation by definition and with the rules of differentiation, increasing and decreasing behaviour, concavity and convexity.	Dr Elisa Fazzari
6	Wednesday 18 November 2026	10:00-12:00	9B	Approximation of functions: differential, Taylor polynomial. Theorems: applications of Rolle's, Lagrange's and Cauchy's theorems. Real functions of two real variables: partial derivatives.	Dr Elisa Fazzari
7	Wednesday 2 December 2026	10:00-12:00	9B	Integrals: indefinite integrals, integrability, definite integrals, the integral function.	Dr Giacomo Zarfati

Tutor contacts

For any questions about the exercises, you can contact the tutors by email:

• **Dr Elisa Fazzari** (sessions 1-6): elisa.fazzari@uniroma1.it

• **Dr Giacomo Zarfati** (session 7): giacomo.zarfati@uniroma1.it
